Portfolio:https://portfolio-ayush6944s-projects.vercel.app/|

Passionate Java Developer with expertise in backend development, REST API design, and cloud technologies (AWS, GCP, Azure). Proficient in Java SE/EE, Spring Boot, Hibernate, and Microservices architecture. Skilled in CI/CD automation, database management, and scalable application development

EDUCATION

IEC Group of Institute and Technology, Noida

2021 - 2025

B.Tech - Computer Science and Engineering - CGPA - 8.1

Noida, Uttar Pradesh

Avadh Collegiate

2021

Senoir Secondary -84% High School 92%

2019 Lucknow, Uttar Pradesh

COURSEWORK / TECHNICAL SKILLS

Languages: Core Java, C, Python, JavaScript, Java 8/11

Technologies/Frameworks: HTML5, CSS3, React, Dot-Net, MongoDB, Express, Javascript, NodeJS, Tailwind,

Bootstrap4.

Cloud Platforms: AWS, Azure, Google Cloud Platform (GCP)

Testing: Selenium, TestNG

Developer Tools: VS Code, PyCharm, IntelliJ, Canva, Github

CI/CD & DevOps Tools: Git Lab CI/CD AI Tools: Elevenlab, ClaudeAI, OpenAI

Backend & Databases: Node.js, Express.js, Mongoose, SQL

Testing & Automation: Selenium, Request, Pytest.

- Proficiency in MS Word, PowerPoint, and basic MS Excel
- · Excellent written and oral communication skills
- Strong client management and relationship building abilities and Team collaboration and ability to work in virtual, cross-cultural environments

EXPERIENCE

Backend Developer Intern at **InfoEdge India** (Naukri.com)

March 2024-Present

Noida

- Developed robust web scraping pipelines using Java and frameworks like Spring, efficiently extracting data from complex, dynamic websites.
- Developed and optimized backend services for high-performance applications. **
- Designed and implemented cloud-based solutions using AWS and GCP.
- ** Built and maintained RESTful APIs to enable seamless data access.
- Automated deployment and monitoring using CI/CD pipelines.

❖ Built and maintained RESTful APIs to serve scraped data, enabling cross-application data access and analysis

Full Stack Intern at Kimo.ai

Oct 2023-March 2024

Delhi

- **❖** Learned and Implemented the back-end of **user-generated content pages**, **achieving a Lighthouse performance score of 8.5/10**.
- ❖ Working on various projects using various coding methodologies.
- Gained practical experience in the MERN stack (MongoDB, Express, React, Node.js) and eager to apply skills in a professional environment..
- Reduced page load time by 4 time by implementing lazy loading for images and other media assets.
- ❖ Implemented user authentication, search functionality, and a voting system for ranking answers.

CERTIFICATIONS AND TRAINING

- Infosys Mastering Data Structure and Algorithms -
- Cyber Security Analyst
- Full Stack Training Nullclass.io
- · Built a Online Web Application Udemy
- 2nd Prize in Coding Hackathon

PROJECTS

Real Time Chat Application with Admin Pannel.

Sep - Oct 2024

Tech Stack- Java + Spring Boot + JWT

- Implemented User registration, login, role-based authorization
- JWT-based authentication with refresh token support
- Secure RESTful APIs using Spring Security
- JWT Structure: Header (token type signing algorithm), Payload (user claims), Signature (verifies integrity)
- · Database integration with MongoDB

DashBoard for Data Analysis

Jan -Mar 2024

Tech Stack -React, Chart.js ,JavaScript, IDE - VS Code

- Developed and maintained interactive dashboards using Chart.js integrated with React for dynamic, real-time data visualization.
- Designed and implemented custom charts (line, bar, pie, radar, etc.) with Chart.js to represent complex data sets clearly and effectively.
- Worked with business analysts to translate complex data requirements into actionable, visual insights for stakeholder presentations.
- 2nd Rank in University Level Coding Hackathon
